Prof. Dr.-Ing. habil. F. Wellner

Academic Career

1975	School leaving examination
1977 – 1981	Studies of Civil Engineering at the TU Dresden, Field of study: Pavement Engineering Degree as graduate engineer (Dipl.-Ing.)
1981 - 1985	Academic assistant at the chair of Pavement Engineering of TU Dresden
1986	Doctoral thesis: Basics of the Design of Block Pavements
1985 – 1987	Employee, later group manager and acting head at the department of Civil Engineering in the field of project planning of a building company
1987 – 1996	Academic assistant at the chair of Pavement Engineering of TU Dresden Research and independent teaching to the subject of Pavement and Urban Engineering
1993	Professorial dissertation (Habilitation): Basics of the Design of Flexible Pavements with Granular Base Courses
Since 1990- 2000	License as private engineer for planning and design in the field of civil engineering Independent engineer for the planning and design of pavement and civil engineering tasks,
1990 – 1997	Partner of an engineering company of planning and design in Saxony
1996 – 1999	Partner of an engineering company of pavement engineering in Hannover
Since 1999	Expert for pavement engineering
1996 - 1999	Professor for Pavement Engineering at the Chair of Pavement Engineering at the University of Hannover
Since October 1999	Professor for Pavement Engineering (teaching and research, laboratory tests and construction site inspections) and director of the Institute of Urban and Pavement Engineering of TU Dresden
2000 - 2007	Director of the state-approved testing laboratory for Pavement Engineering of TU Dresden
Since 2003	Visiting Professor of Chongqing Jiaotong University
Since 2019	Visiting Professor of Harbin Institute of Technology
Furthermore	Member of the Road and Transportation Research Association of Germany (FGSV) member of executive committee and member / chairman of several committees of FGSV Member of the scientific committee of the German Highway Research Institute Member of the Association of Road and Transport Engineers from Saxony (VSVI) Member of the Committee of Small Element Pavement Technology (SEPT)
